Tel.: +421 0960 42 35 24

Conference objective is to:

To provide representatives of the academic community and experts a wide space for discussion of theoretical and practical problems of military logistics and resource management in the armed forces

Topics to be discussed:

- Current status, problems and trends in military logistics.
- Economic and security determinants conditioning the development of resource management in the armed forces and armed security forces.
- Education and training of logistics specialties (specializations) as a primary factor in the quality of resource capability and military logistics.
- Requirements for the economic knowledge of officers operating in the field of resource management in the armed forces and armed security forces.
- The impact of globalisation on the resource management and military logistics system within NATO member countries.

Conference outcomes:

- An electronic Conference proceeding will be published following the international scientific conference.
- All papers will be reviewed.
- Papers will not be financially rewarded.

Venue:

- Armed Forces Academy of gen. M. R. Štefánik in Liptovskom Mikuláši, Armed Forces Academy Club, **08.30** am – **05.00** pm
- Languages: Slovak, English, Czech, Polish (no interpreting)
- Conference is to be held in one section (no interpreting).
